Objective

Cybersecurity student seeking an internship for Spring or Summer 2027.

Education

Rochester Institute of Technology

Expected Dec. 2027

Bachelor of Science in Cybersecurity, Minor in Criminal Justice

- Relevant Coursework: Networking Services, Endpoint Security Engineering, Reverse Engineering, Systems Administration, Cryptography, C & Assembly Programming

Experience

SOC Analyst and Incident Response Intern — Lynden Incorporated

May 2026 – Aug 2026

- Triaged Darktrace alerts involving anomalous network and authentication activity, documenting dispositions and escalations through Jira
- Investigated phishing and spoofed emails, analyzing sender authentication, links, attachments, and recipient exposure using Microsoft 365 Defender, Darktrace/Email, and Joe Sandbox
- Audited privileged access, Active Directory groups, and security policies; authored four Netwrix Access Reviews playbooks supporting an enterprise rollout
- Created 9 of 15 phishing simulation emails for a company-wide awareness campaign, coordinating scenario approvals and employee education
- Developed ES|QL queries and Kibana dashboard designs to improve security visibility across authentication, network, and alert telemetry
- Authored a technical business case for Darktrace SDK integration to automate threat intelligence workflows and expand ELK/Kibana visibility

Projects

Homelab — Networking and Virtualization

2025 – Present

- Deployed OPNsense with Zenarmor for firewalling and deep packet inspection
- Configured Tailscale subnet routing for secure remote access and deployed Proxmox VE for virtualized Linux and Windows environments
- Deployed Snipe-IT using Docker on Ubuntu Server for centralized asset management

ELK SIEM Deployment — RITSEC SIEM Mentorship Group

Sept 2025 – Dec 2025

- Deployed an ELK SIEM environment with Elasticsearch, Kibana, and Elastic Agent across Windows and Linux hosts
- Ingested Windows Security, Sysmon, and Linux system logs to centralize endpoint security telemetry
- Configured Kibana dashboards and alerting workflows to support security monitoring and event investigation

Extracurriculars

Competitions & CTFs

- **IRSEC 2025 and ISTS 2026:** Black team scoring member; created score checks for monitoring uptime and updated the scoring engine
- **Eaton CTF '25** (1st place, web/memory forensics), **DoD Cyber Sentinel '25** (Top 10/2100), **NCAE Cyber '25** (2nd place East Division), **Bugcrowd CTF '25** (12/66), **CyberPatriot XVI** (Top 150)

Clubs

- **RITSEC:** Hardware Reversing (telecoms and automotive modules), Web Application Pentesting mentorship groups. Physical Security interest group (lockpicking and bypassing)
- **Ultimate Frisbee B Team:** Treasurer and Safety Officer; managed budget, equipment procurement, and player safety protocols

Other Experience

- **Lifeguard — Seattle Parks and Recreation**
- **Webmaster — ISSA Puget Sound**

Jun 2024 – Aug 2025

Mar 2023 – Aug 2024

Technical Skills

Languages: Python, PowerShell, Java, C, HTML, Assembly (x86)

Security Tools: Darktrace, Microsoft 365 Defender, Rapid7, Netwrix, ELK/Kibana, Wazuh, Wireshark, Volatility 3, Joe Sandbox

Infrastructure: OPNsense, pfSense, Proxmox VE, Docker, Tailscale, Snipe-IT, Unbound, Grafana, n8n

Certifications: Microsoft Certified: Azure Fundamentals (AZ-900), GIAC GFACT, IT Specialist

Operating Systems: Windows 10/11, Windows Server 2022/2025, Rocky Linux 9, Ubuntu Server, Kali Linux
